

The screenshot shows the iWi Catalog software interface. At the top, there's a navigation bar with 'Companies', 'Subscription', 'Users', 'Save', 'Import', 'Export', and 'Logs'. Below this, there are several tabs: 'General', 'Technical', 'Marketing', 'Manufacturing grid' (selected), 'Price grid', 'Combination', 'Groupment', and 'Specific data'. The 'Manufacturing grid' tab is active, displaying a table of 'Actual manufacturing grids' and a 'Grid visualization' chart. The table has columns for 'Range type', 'Diam.', and 'Points'. The 'Grid visualization' chart shows a grid of points with a color gradient from blue to red, representing different lens specifications.
